**TESTIMONIAL**

I was attached to DK Outsource from 15<sup>th</sup> March 2010 to 4<sup>th</sup> July 2010. Overall, the experience at DK was a fruitful and fulfilling one as I have made a lot of new friends and I had also learnt a lot from everyone that I have worked with at DK.

At the beginning, I was actually very worried that I will not be able to do well in the company - I was not very good at my English and so I might face a problem in terms of communicating with the rest of the employees at DK as most of them did not know how to speak Chinese. I was also very worried that I might not be able to complete the tasks that I will be asked to do- the course that I am currently studying was not closely related to QS (in short for Quantity Surveyor) and there were so many things that I did not know and understand. However, all my worries were uncalled for as the people in DK Outsource were very friendly and helpful- I got to know a Singaporean intern from Ngee Ann Polytechnic and he was the one who helped me in terms of communicating with the rest of the people; either by translating or by explaining what they wanted me to do.

I have learn a lot during my attachment- for example, I have learn that being a Quantity Surveyor will basically means that you will be in charge of accounting for the total cost of constructing a building. I have also learn how to measure walls, floors and ceiling finishes and many other more. Not only have I learnt these knowledge, I was also part of the organizing committee for one of DK's program and from that, I have learn the ways to organize events even though there were limitations and challenges met while planning.

Overall, I had fun at DK during the 4 months attachment and learnt a lot as well. Not forgetting one of the most important part - I made a lot of new friends. All these factors enriched my stay in Singapore. I would like to take this chance to thanks everyone at DK Outsource for making my stay at DK an enjoyable one.

Thank you.

Yours Sincerely,
