TESTIMONIAL

I was attached to DK Outsource from 25 August 2008 to 11 October 2008. It was a great experience working in DK Outsource as I could get the chance to learn so many things that are not taught in school before. In DK I learnt a lot about measurements, different kinds of measurements that I was taught for example, staircase, Lafarge wall, brick wall, doors and windows. These are new for me as I was never taught in school before. However, the staffs in DK Outsource are very helpful in coaching me. They are always there to help me when I am in need and having problems in understanding the drawings.

I am very grateful to have DK Outsource as my attachment working place. The people in DK Outsource are friendly, helpful and understanding. Not only that they are patient enough in teaching and coaching me. Therefore, I would like to thank DK Outsource for making this Industrial Training Programme a learning experience and preparing me for the next level.

Thank you.

Yours sincerely,
