TESTIMONIAL

I was administering Quality Aspects and HR Matters during my five month stint in DK. I am very much grateful to Mr Dennis for giving me the exposure to HR Practices. It was an aspect which I had always wanted to explore and I believe the seminars and people I met along the way helped achieve a sense of confidence and enthusiasm in me.

There were a few instances where I made mistakes but the close guidance and mentorship given by Mr Dennis taught me to never give up. Mistakes became opportunities for me to rectify and improve.

The team at DK Outsource are professional and they are the branches to making it a responsive and efficient organization. I have no doubt in recommending them to any client who wishes to engage in outsourcing services.

Last but not least, I would like to give my sincere appreciation to my colleagues. They have not only been my mentors but friends whom I can comfortably confide in. Thank you.

Yours sincerely,
