TESTIMONIAL

Dear Mr. Dennis,

It has been a wonderful and fulfilling working experience here at DK Outsource Pte Ltd. The knowledge and skills gained during this 7 weeks attachment is immeasurable. Throughout my stay, I have learn to use the planimeter to do quantity measurements and filling of the bill of quantities; with the close supervision and guidance of several quantity surveyors including Thandar Lwin, Ambar and Manager Clement Tan. I have acquired skills and knowledge that have not been taught in school and have grown to be much more independent and focused in the work that I have been tasked.

The countless opportunities given to me allowed me to learn and experience what working life is really like. The site visits proved to be really helpful and eye-opening, as I got to meet people from the construction industry; engineers and architects. All of which changed my perception and naïve thinking of what the industry is like through textbooks and notes.

The working environment at DK Outsource is very friendly, and it doesn't feel dreadful to wake up every morning, even on Saturdays, to go to work. Even though the work tasked to me wasn't easy and quite stressful, I looked forward to working. I'd like to thank the staff of DK Outsource for their guidance, patience and understanding.

Thank you.

Yours sincerely,
