TESTIMONIAL

I had completed my 9-week internship program at DK Outsource from 12th May 2008 to 11th July 2008.

During my 9-week internship at DK, I had learnt how to do simple interior measurements such as counting for doors and windows, as well as finishes for wall, floor and ceiling. In addition, I had also learnt how to measure for straight and spiral staircases. With the aid of measurement device, measurements were made much faster and easier.

Mistakes were inevitable as I had no prior experience in measuring for interior finishes and staircases. However, with the guidance of my mentor and other helpful staffs, I was able to minimize mistakes made for each task by the end of my internship.

A site visit was also organized for interns like myself during my internship period. It was indeed an eye-opener experience as we got to visit new and upcoming excitements such as Gardens by the Bay at the Marina Bay area. We even got the Project Manager of the Common Service Tunnel at the Integrated Resort to share his project experience with us.

It was a pleasant internship experience at DK. I would like to thank all staff for their kindness and help during my internship period.

Thank you.

Yours sincerely,
