**TESTIMONIAL**

I was attached to DK Outsource from 17May 2010 to 17July 2010. During my 9 week attachment at DK, I learnt a lot of new and interesting things from the staffs here. It is so much of my unforgettable experience that I make friend and have a chance to work with people coming from other countries and challenge myself under real working environment – the one I cannot get from study.

At the beginning I was rather worried that I would not make it good since my knowledge of measurement which I studied at school is of very basic things and my communication skill is not good. However, I learned from the simple and easy things to get used to the work little by little and the staff here is very friendly and helpful to explain well what I do not understand.

Perhaps the time I never forget at DK is period I was the person-in-charge of the NUS A&A project. It was really stressing and hard time since I had to work under pressure of tight schedule and more difficulty is the knowledge I have never studied at school. This is a very real experience that helps me more grown up to face out difficulties upon graduation.

I would like to send my best thank-you to Joel, my mentor who supported me a lot to come over my project under his care, Nicole, my colleague who shared the work with me and raised me up during my hard time and my sincere appreciation to Mr. Dennis and all the staff at DK.

Thank you.

Yours sincerely,

*Nhu*
