TESTIMONIAL

It's been a wonderful experience during my 6 weeks of internship with DK Outsource from 7th September 2009 to 16th October 2009.

I had learnt how to do simple measurements such as finishes, walls and columns. With the aid of an instrument to measure the length and perimeter, it has allowed me to complete my task faster and with accuracy.

I am given many opportunities to attend tender briefings which had allowed me to understand deeper what I learnt during lectures. We even got the chance to go for a site visit to Singapore's on-going and future construction sites such as the Marina Barrage and Gardens by the Bay. No doubt, I also had fun and great experience.

It was an enjoyable internship experience with DK Outsource. I would like to thank all the staffs for their patience and willingness to teach me during my internship period.

Thank you.

Yours sincerely,
